PRINCIPAL'S DESK

To build citizens for the 21st century, we strive to continuously offer learning experiences to students that help them to "see through the eyes, minds and hearts of others. Hence learning goes beyond text books, beyond the walls of class rooms and beyond chalk and duster at MGM.

**MRS. PREETHY CHAND
PRINCIPAL**

In this context, we had an array of activities in the month of September that helped students to develop a range of skills and knowledge in different contexts and more importantly; to express themselves, build confidence and develop their social skills.
